Recycling bins for 25 schools

KUALA LUMPUR: For six months, 44,000 students in the Klang Valley will be encouraged to collect used cartons in special recycling bins provided in their schools.

It is carried out under the "Nature for Nature" programme to instil love for the environment among children at 25 primary day-schools in the Klang Valley.

The programme is organised by Tetra Pak (Malaysia) Sdn Bhd with the cooperation of the Forest Research Institute of Malaysia (FRIM). – Bernama
