## KLCC sows seeds for greener future with 80 trees

**KUALA LUMPUR:** A team from Kuala Lumpur Convention Centre (KLCC) planted 80 trees in the Forest Research Institute Kepong Botanic Gardens recently.

The green project, led by general manager Datuk Peter Brokenshire, is funded from the money that was supposed to have gone towards commemorative gifts for the guests at KLCC's recent Client Appreciation Cocktail.

"Instead, we decided to channel the money towards the preservation of the environment, and committing to conservation and sustainable development," said Brokenshire.

He said the tree-planting was the first step in KLCC's corporate social responsibility initiative, with more to come under the programme.

The KLCC team contribute money and effort to save the environment.
