Go-green campaigns healthy and thriving in schools

WE refer to the letter "Implement go-green campaign in schools too" (*The Star*, March 26). The Education Ministry appreciates the feedback and suggestions and will take them into consideration.

For the Division of Sports, Arts and Co-curriculum, preserving our Mother Earth, nurturing and protecting its every need, has become

our greatest pride.

There are many programmes carried out in conveying this message of preserving nature and the environment through existing clubs.

One programme currently being carried out in a number of schools around Kuala Lumpur, Selangor,

Negeri Sembilan and Malacca is the "Go Green Campaign" organised

jointly with Stamford College.

Another significant one is the planting of trees in schools in collaboration with FRIM in 16 schools

around the country. LEO clubs in schools are also actively taking part in such environmental activities.
