## MoU to develop bamboo industry

**KUALA LUMPUR:** Kanger International Bhd had signed a memorandum of understanding (MoU) with Forest Research Institute Malaysia (Frim) to jointly develop the Malaysian bamboo industry. Kanger said it would work together with Frim in terms of research and development, and manufacturing and production of bamboo products, and also jointly establish a bamboo plantation in Malaysia. "Under the MoU, the parties will focus on production of high value bamboo products and other bamboo products suitable for structural use and construction materials," said Kanger.
