Bargain hunt

Make Dome Café your choice stop for quick lunches or leisurely brunches to give back and go green. The international café chain is launching a Go Green campaign in February to raise awareness of the importance of leading an eco-friendly lifestyle. Customers who spend RM200 and above in a single receipt in Dome outlets nationwide receive a complimentary recyclable bag that is also available for purchase at RM20. All proceeds from the bag will be directed towards the planting of trees at Forest Research Institute Malaysia, so savour your meal and coffee, knowing it is contributing to a greener world.
